

TURTLE Looms Project: Advent Calendar

By [TexasGabi](#) for TURTLE Looms
last modified 20171129

This worksheet is a supplement to the [“Advent Calendar Ornaments” project video](#) that you can find on our Youtube channel.

In the video we show **how to make advent calendar ornaments with the TinyTURTLE™ loom.**

An advent calendar is a special calendar to count the days from December 1st to 24th in anticipation of the Christmas holiday. You use the calendar by hanging a new, numbered ornament every day on a wall hanging (or any other means of display, for example a branch arrangement).

Materials

- **TinyTURTLE™ Loom Kit**, [buy here](#)
- **Threads & Loops yarn, Colorwheel** (we wove 4 hexagons each in the following colors: CW-40 Cream, CW-11 Gold, CW-14 Orange, CW-09 Red, CW-27 Turquoise, CW-33 Royal Blue)
- **Peel and Stick Felt**, one sheet, green or any color of your liking
- **Fishhook earrings** or any other means to make a hanger
- **Numbering**, 1 – 24, or make your own (embroidery, fabric paint)
- **Scissors, tapestry needle**

Displaying the Advent Calendar Ornaments

If you like the hexagon tree wall hanging, you can find the project information on our blog site: [“O Tannenbaum” wall hanging instructions](#). Other ideas for displaying your advent calendar:

- Use a piece of felt or fabric as wall hanging.
- Pin the ornaments to a cork board.
- Hang the ornaments on a decorative tree branch.
- Add a new ornament every day to a pretty holiday bowl and display as center piece.
- Display the current day ornament on an ornament stand.

If you have any **questions or comments**, please contact Gabi at gabi@texasgabi.com.
