What's the Project List?

This document provides easy links to all projects of the 2017 Advent Weave Along. Just click the links for each day and it will bring you to the project information! Some projects were so easy that they didn't require a full project description. You will find instructions for those right here in the list.

11	Baby Bear's First Christmas		https://turtleloom.com/2017/12/11/baby-bears-first-christmas/
12	Fireplace Wall Hanging		"Fireplace behind the tree" wall hanging. Use any yarn (I used 1 cake of Herrschner's "Holiday Cakes"). Use the photo to guide you in laying out the hexagons in the given colors.
13	Pickle Ornament		Weave one green hexagon, fold in half, starting tail matching opposite tip. Pull in the top/bottom sides to form tippy ends. Sew along the other sides and stuff. Sew on a few green sequins.
14	Star		Weave an original TURTLE Loom hexagon using a 6.5 ft rice light chain.
15	Reindeer		http://ravel.me/TexasGabi/thplr
16	Candle		Candle cozies: Weave one original TURTLE Loom hexagon. Sew a waste thread along the perimeter of the hexagon. Push "flame" of a LED tea light through the center of the fabric. Pull the waste thread to close at the bottom, leaving enough of an opening so that you can easily access the on/off switch of the candle.
17	Stocking		Weave two hexagons on the TinyTURTLE. Use the photo to guide you for the assembly: Fold hexagons in half, along the line of the starting thread. Sew along the sides, keeping one end open for the stocking top, pulling in the other end in slightly to form the toe tip. Finish the top with one row of single crochet, using the ends to form the hanger.

18	Icicle		This icicle was woven on a 3.5" Hazel Rose diamond pin loom, using "Jelly Yarn" by YummyYarns. Just weave the motif, it will twist all by itself.
