

Weave Together 2025 Make-and-Take Travel Tag

Make a travel tag to uniquely identify your belongings! Here is how ...

Choose a Kit

	<p>If you wove a hexagon or want to use any other small piece of fabric that you made during the Weave Together retreat, choose a Make-and-Take kit without a hexagon.</p>
	<p>There are also kits with a hexagon tag ready to go. If you want one, choose a Make-and-Take kit with a hexagon.</p> <p><i>All hexagons are woven with yarns from the Marketplace. Each hexagon is unique in color or color combination.</i></p>

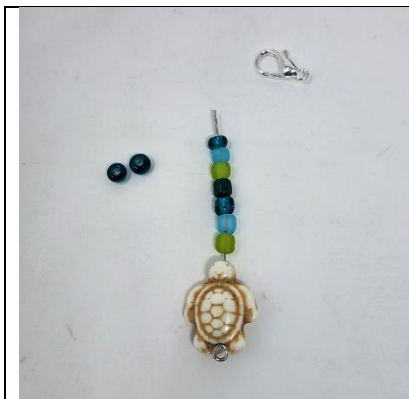

Note: If something doesn't work out right away, the Weave Together team has a small supply of **spare parts** to help you out.

Make the Fabric Tag

If you choose to make a hexagon or use another piece of fabric, use the yarn tails or sewing thread and needle (provided at the Make-and-Take area) to sew the small lobster clasp to your fabric.

Make the Beaded Turtle Tag

Use the eye pin to thread the turtle bead and about 6-8 glass beads.

Use a nose plier (provided at the Make-and-Take area) to loop the end of the eye pin around the small lobster clasp.

Assemble the Travel Tag

Clip the two tags onto the large lobster clasp.

Your travel tag is ready to decorate your purse, tablet case, or any of your belongings.
